### REMARKS

It appears from a review of the file that U.S. Patent Application Number 09/248,627 unintentionally claimed priority to U.S. Patent Application Number 08/716,016, and that the mistaken priority claim was unintentionally continued in the present application. The Cross Reference section has been amended to correct the priority.

It is believed that the pending claims are patentably distinct over U.S. Patent Number 5,820,489.
